armex from FENCEPOINT

DATASHEET

# ARMEX 358 PRISON MESH

## KEY FEATURES

- **Pre-Galvanised Steel** to BS 10346 (Ensures compliance to latest standards)
- **Cost Effective** (High security with low-maintenance performance)
- **Strength & Resilience** (High quality galvanised steel construction, rust resistant)
- **Versatility & Easy Installation** (Overlapping panels with clamp bar)
- **Security** (Tight mesh spacing making it harder to force entry)

## SUITABLE FOR

- **Prisons**
- **Airports**
- **Data centers**
- **Schools**

**Anti-Climb**
Robust anti-climb design preventing unauthorised entry.

**Range of Heights**
Available in 1.8 – 3.0m to suit many applications.

**Weather and damage resilient**
Manufactured from pre-galvanised steel, the zinc coating helps prevent rust & corrosion. Powder coated as standard for extra resilience.

**Visual appeal**
Single layered mesh system available in Green & Black

**Your trusted partner** for reliable, high-quality fencing solutions
